...

Perfect timing. I just had added this to my list of things to chat about with you guys.

Talk

Subject: Response to comments, wadeable stream criteria

Hi Tina;

Attached is our final response to comments from the peer reviewers on the wadeable stream criteria document. If you recall, last August three anonymous peer reviewers reviewed the document via the NSTEPS criteria process.

The final technical document (Scientific and Technical Basis of the Numeric Nutrient Criteria for Montana's Wadeable Streams and Rivers: Update 1) is going through final formatting and should be posted on the department's internet site in a week or so. The changes to the document discussed in the attached memo will be reflected in the final technical report.

Thanks, and let me know if you have any questions.

Mike
